Sporting Notes.

As was to be expected, with the advent of the cool weather, the pugilistic season opened. The premier bout took place last week, when a French light-heavy met a pug from Callahoo, in a town not so far from Stony. The affair was mostly rough-and tumble until the Scotch referee arrived on the scene. It was a four-round no decision affair, but the contestants agreed to meet again, when a little training has been done.

The opening rounds of the other bout took place Friday night, when Mr Louie Graff claims a certain party gave him three punches over the right eye. Not satisfied with doing this, the assaulter came round the next morning and kicked Louie in the kitchen. On reporting the matter to the Sporting Editor, Louie was willing to show only the facial souvenirs he had received in the encounters. Louie has started taking lessons from a correspondence school in the manly art of self defence.

Rifle Club's Big Shoot

Tomorrow (Friday, the 19th) the annual shoot of Stony Plain Rifle Club will take place Prizes amounting to $300 will be competed for.

Competitions for individual shooting will start at ten a m, and team shooting immediately afterwards. All membeis are requested to be at the range on time.

The Club's annual Smoker will take place the same evening, and promises to be the event of the season. The City rifle club is sending a big delegation. The admission will be $1.

As we go to press, the announcement is made that the Hon. Charles Stewart, the member for this Federal Riding, will address a meeting in Stony Plain on Saturday Evening Next, at Eight-Thirty.

STOP! LOOK! LISTEN!

Stop your Buying till Wednesday, October 24th, 9 A.M.

WATCH FOR OUR DOUBLE-PAGE CIRCULAR AT YOUR DOOR OR THRU THE MAIL.

Stony Plain Hardware,

STONY PLAIN, ALBERTA.

LOCAL NEWS.

Messrs A Mundt, G Davis and J Manarey, who had been up at Peace River for several months, returned to Stony Plain Sunday morning.

Mr Sam Comisarow, Millet, motored up to Stony on Sunday.

Mr Nicholson, the obliging night agent at the local station for the past year, has taken a day position at Laporte, Sask. His place has been taken temporarily by C B Simson of Edson.

A sitting of the District Court is billed to be held in Stony Plain next Wednesday, the 24th.

R. C. services will be held in the Town Hall on Sunday next at 10. a.m.

Rev J F Schultz of Park Rapids, Minn., gave an address in the local Lutheran coapel Sunday evening on the subject "St Paul."

The Special services of the United Church at three points on Sunday last were most successful. Prof. Ottewell gave a most interesting address based on the words: "Say not that the former days were better than these." The genius of the speaker as a lecturer was very evident. A male choir of six voices rendered special music.

The J. K. Kelly sales system of Minneapolis, represented by R C Bradstock, will conduct at the Stony Plain Hardware a ten-day reorganisation sale, starting Wednesday, October 24th, 9 a.m., saving Stony Plain Hardware patrons many dollars. Come and save as you never saved before.

The dance at the Rosenthal School on Friday night proved to be a very delightful affair. Good music, a good floor, and a merry crowd helped to make a pleasant evening.

If your eyes bother you, or you suffer from headaches, why not have your eyes attended to by an expert? M M Mecklenburg, eye specialist, 10159 101st St., Edmonton.

Death of Mr Louie Willie.

After a lingering illness, Mr Louie Willie, a well-known and highly-respected farmer of the Inga district, passed away on Friday last, while an inmate of an Edmonton hospital.

Deceased was an old resident of this district, having resided here practically all his life, and was an enterprising and successful farmer.

The funeral took place on Sunday afternoon. Service was held at Rosenthal Lutheran Church, being conducted by the pastor, the Rev G Poetzsch. Interment took place in the churchyard.

A very large number of friends was present at the obsequies, to testify to the high esteem in which deceased was held.

The Farmer and the Research Worker

The prairie provinces of Canada have completed the harvesting and threshing of the greatest grain crops in the history of Canada, judged from the standpoint of volume. It is conservatively estimated that the wheat crop alone will not be less than 500,000,000 bushels, and that the other four principal grains, oats, rye, barley and flax, will add close to another 500,000,000 bushels to the total bringing Canada's grain yield for the first time within measurable distance of a billion bushel crop.

In almost every respect the season of 1928 was ideal from the standpoint of seeding, growing, cutting and threshing and the acreage seeded showed a substantial increase over former years. There was an absence of rust and other parasites, ample moisture, taking the country as a whole, and generally an absence of those conditions which result in a lowering of yield. The only fly in the ointment was the killing frosts of the third week in August which caught the later sown crops and those which from one cause or another had not matured. The result was disastrous from the standpoint of grades, and consequently materially lowering in prices of a large part of the total production.

According to a rough estimate of the Saskatchewan crop it is stated that about one-third of the wheat will be of the contract grades of 1, 2 and 3 northern, that another one-third will grade number 4, and that the remaining one-third will grade below that figure.

It is within the power of our farmers to partly offset the losses occasioned by dry seasons through the adoption of the most scientific methods of farming; they can increase yields and grades by using good, clean seed and by waging continuous warfare on noxious weeds; they can insure their crops against hail. But they stand helpless before the icy clutch of Jack Frost.

Addressing the annual convention of the Saskatchewan Division of the Canadian Weekly Newspapers Association, at Regina, recently, Hon. W. R. Motherwell said he knew of only one way to beat out Jack Frost, and that was to get ahead of him. He had reference to the development of wheat with earlier ripening qualities. In this connection he made mention of the valuable time gained through the development of Marquis over the old Red Fife, and brought the cheering message that as a result of the experiments this year with Garnet and Reward, there was every expectation that a further notable advance would be made. According to Mr. Motherwell, where Reward wheat was grown by farmers in all the prairie provinces, under arrangements with the Department of Agriculture, in over 90 per cent. of cases Reward was safely in stook before the August frosts. He expressed himself as quite hopeful that western farmers would yet be in a position where they could and would beat out Jack Frost.

Experiments have been conducted for some time past to determine to what extent the drying processes for damp wheat affects milling and baking qualities, and recent announcement is to the effect that, on the whole, the quality of the wheat is not seriously affected.

Now the Universities of the three prairie provinces and the Dominion Research officials are engaged in determining the effect which frost has on milling and baking qualities. Hundreds of farmers this year have had the experience of marketing wheat, weighing the full sixty pounds or more to the bushel but which, because of frost effect on the chaff, has been graded away below what would otherwise have been obtained. Rightly or wrongly there is an impression that this frost, while marring the appearance of the kernel, does not seriously affect the quality, and that the producer is sustaining a loss all out of proportion to the amount of damage done the grain; that, in a word, while the farmer-producer loses, the miller gains because he secures good milling wheat at a much less cost. The scientists are now striving to get at the real truth of the matter.

Thus are research workers for Governments and Universities working hand in hand with the farmers in endeavoring to advance the interests and prosperity of agriculture,—through the development of earlier ripening grains, the elimination of rust, and in determining the actual effects of moisture and frost on the true commercial value of grain. The effort is to save hundreds of millions of dollars to the agriculturists of Canada.

Canada is spending more money than ever before in scientific research work, and the Dominion Government announces that such expenditures will be still further increased. No body of men in the Dominion stands to gain more from such work and expenditures than do the farmers of the West. The whole weight of their influence should be back of this enlightened policy.

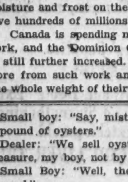
Small boy: "Say, mister, give me a pound of oysters."

Dealer: "We sell oysters by the measure, my boy, not by the pound."

Small Boy: "Well, then, give me a yard."

"Hey, Miss Watsyourname!" shouted the boss. "What's the phone number of Brown & Company?"

"O," replied the new stenog, dabbling her nose, "approximately 2000 Something."



When Food Sours

About two hours after eating many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been overstimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

The right way is Phillips' Milk of Magnesia—just a tasteless dose in water. It is pleasant, efficient, and harmless. It has remained the standard with physicians in the 50 years since its invention.

It is the quick method. Results come almost instantly. It is the approved method. You will never use another when you know.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

HONORED BY NEWSPAPER ASSOCIATION

SAM. R. MOORE

Publisher of the Swift Current Sun, President of Saskatchewan Division of the Canadian Weekly Newspaper Association.

Canadian Weekly Newspaper Association

Saskatchewan Division Elects Officers At Convention Held in Regina

Sam. R. Moore, publisher of the Swift Current Sun, was the unanimous choice of the Saskatchewan division, Canadian Weekly Newspaper Association, as president for 1928-29. The election of officers was held at the closing session of the two-day convention of the organization held at the Hotel Saskatchewan, Regina. Officers elected are: Hon. S. J. Latta, honorary president; C. R. McIntosh, M.P., North Battleford, honorary vice-president; T. H. B. McCullough, the Review, Weyburn, immediate past president, Sam. R. Moore, president; H. G. Sheldrake, North Battleford, Optimist, vice-president; S. J. Dornan, the Despatch, Alameda, secretary-treasurer, and the following members of the executive, W. Ashfield, The Sun, Grenfell; B. M. Frith, The Recorder, Wakaw; R. Zubac, The Citizen, Kerrobert; W. T. Morphy, The Sun, Viscount; Andrew King, The Enterprise, Rouleau; S. N. Wynn, The Enterprise, Yorkton.

Upon the invitation of the Regina City Council and the Regina Board of Trade, Regina was decided upon as the meeting place for 1929.

ARE YOU AFRAID OF YOUR MEALS?

Proof That the Stomach Is Weak and Needs Toning Up

Are you one of the many sufferers who dread meal time? Hungry, and yet afraid to eat, because of the pains and discomforts that follow. When the stomach is out of order the whole system suffers, and as the blood becomes thin and watery it becomes increasingly difficult to correct the digestive disorder. There is no tonic for the stomach that is not a tonic for the whole body; thus a blood-building tonic such as Dr. Williams' Pink Pills, not only relieves indigestion, but adds to the general strength. Mr. D. J. Shaw, Selkirk Road, P.E.I., has proved the value of Dr. Williams' Pink Pills in a severe case of indigestion and relates his experience for the benefit of other sufferers. He says:—"I suffered from indigestion for a number of years. My case was so bad that words fail to describe it. My appetite was gone, constipation was present, and my nerves were all on edge. I could not sleep well at night, and the world was a dark spot for me. I tried a number of remedies, but without any benefit. Then Dr. Williams' Pink Pills were recommended, but without much faith, after so many failures, I decided to try them. After taking three boxes I noticed a change for the better. Then I got three boxes more and found I had a genuine remedy. I continued the treatment, took moderate exercise, could take plain food without suffering as formerly, and proved that these pills make good blood, and that this good blood will restore the stomach and nerves. Anyone suffering from stomach or nerve troubles will make no mistake in giving Dr. Williams' Pink Pills a fair trial."

Dr. Williams' Pink Pills are sold by all medicine dealers or will be sent by mail at 50 cents a box by The Dr. Williams' Medicine Co., Brockville, Ont. Write today for a copy of the free booklet "What to Eat and How to Eat."

Many of us are kept out of a lot of mischief by being out of funds.

Headache? Relieve with Minard's Liniment.

ASPIRIN

Headaches may be swiftly and safely relieved by an Aspirin tablet. A most efficient remedy, and there's no after effect; its use avoids much needless suffering. Try it next time; see how soon its soothing influence is felt. Just as helpful when you have a cold; neuralgia, neuritis, rheumatism, lumbago. Just be certain you get real Aspirin—the genuine has Bayer on the box, and on every tablet. All druggists, with proven directions.

Physicians prescribe Aspirin; it does NOT affect the heart

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is well known that Aspirin means Bayer manufacture, to assure the public against imitations, the Tablets will be stamped with their "Bayer Cross" trademark.

The heart of the average adult is 5 inches long, 3½ inches broad and 2½ inches thick.

Minard's Liniment for sprains.

"Is Betty a good cook?"

"No, but she can change a tire!"

Cloth woven by Mayans 2,000 years ago in America has been found, according to Prof. Franz Blom, of Tulane University, New Orleans.

The need of the times is a vehicle you can ride down town and then fold up and carry into the office.

Nail GYPROC right over Old Walls

GYPROC Advantages for Farm Buildings

Easy to use.
Low cost.
Workable as lumber.
Cannot warp, bulge, crack, shrink or burn.
Takes any decoration.
Resists heat and cold.
Vermin proof.
Eliminates repairs.
Ideal for lining garages, poultry houses, barns, grain bins, and other farm buildings.
Especially suitable for converting attics and basements into extra rooms.

How many rooms in your home have walls that are cracked and faded? Make them "good as new" by nailing Gyproc right over the old, unsightly wallpaper. When you've decorated with Alabastine your home will be as attractive and comfortable as any home can be.

Use Gyproc for partitioning off extra rooms, renovating attics and basements, and making grain bins, stables and other farm buildings fire-safe and vermin-proof. You can put it up yourself—easily, quickly and at a substantial saving.

Gyproc Joint Filler applied at all the joints insures a perfectly smooth, flat surface that will take any decoration.

Interesting Information Regarding Prehistoric Reptiles Discovered In Bad Lands Of Alberta

Under the auspices of the Calgary Rotary Club, Prof. Chas. M. Sternberg, of Ottawa, field palaeontologist for the Canadian National Museum, addressed two audiences, recently, on the fossil remains of prehistoric reptiles discovered during recent years along the Red Deer River in the Drumheller District.

"The Dinosaurs of the Bad Lands of Alberta" was the title given to Prof. Sternberg's very interesting address and he illustrated it step by step with moving pictures, showing the careful work of excavation, and diagrams and reconstructions of the monster reptiles in their former habitat.

As a single day is to the average life of man, said the professor, so is the entire span of existence of human life on earth as compared with the time during which life in other forms has existed. Life on this planet had been divided for purposes of study, into five great periods, of which the last three periods were the reptilian, the mammalian and human.

Among the most interesting inhabitants of earth during the reptilian period of geologic time was the group known to moderns as the dinosaurs, a name which simply meant, "terrible lizards," said Prof. Sternberg. They were not a single variety, but a large group of which more than three hundred different varieties have been distinguished by scientists, and this group included the most spectacular creatures which have inhabited the globe before or since. In size they graded from one hundred feet in length, the largest creature which had ever walked on earth, to varieties measuring only a couple of feet and closely resembling some of the reptiles on earth today.

The most conservative estimate which has been put upon the period during which the dinosaurs flourished set the beginning of the reptilian age as twelve millions of years ago and the end of that period as not less than three million of years.

In Alberta, said Professor Sternberg, had been found one of the greatest deposits of fossilized remains of these creatures known to exist on earth. Thirty-five species had so far been discovered representing five different families.

Throwing a chart of the North American continent, as it had existed during the later reptilian age, on the screen, the lecturer explained why the Alberta bad lands had been a favorite habitat for the dinosaurs. The eastern and western halves of North America at that period were divided by an immense central sea which had stretched from the Arctic to the Gulf of Mexico, and from the present foothills of the Rockies to the rising lands in what are now the eastern provinces of Canada and eastern states of the American union.

The area where Calgary now stands and the Rockies themselves were then but little raised above sea level, it was explained, and from the higher land slow moving streams brought down great deposits of silt which piled up along the shores of the central sea, forming great deltas. Vegetation was semi-tropical; palms of many varieties, figs and species of trees which have since vanished, grew in profusion among the sedgy delta-lands, and these swamps were the chosen home of the great reptiles.

The disappearance of the dinosaurs was probably due to a number of causes. No great catastrophe was responsible for their extinction. The gradual rising of the mountain areas and the drying up of the central sea possibly cut off their food supply little by little, and some three millions of years ago the last of the species had give up the struggle.

The neighborhood of Drumheller and Steveville along the Red Deer river was today the most fruitful hunting ground for those seeking information on the life and habits of these creatures, said Prof. Sternberg. There were probably equally rich deposits of fossils at other places along the margin of the inland sea area, but here in Alberta the Red Deer River, seeking in comparatively recent geologic times for an easier channel had cut its way through the prairie lands which had formerly been the delta-land of the central sea and had exposed great grave-yards of dinosaurs, where their bodies had been buried in the muddy swamps in which they had lived.

A Chic New Frock

Extremely smart is the attractive one-piece frock shown here, having a front and back yoke, an inverted plait in each side seam, set-in pockets, and long tight-fitting or short sleeves. Buttons adorn the front closing, and a buckle finishes the trim belt. No. 1579 is for misses and small women, and is in sizes 16, 18 and 20 years. View "A" size 18 (36 bust), requires 3¼ yards 39-inch material for dress, and ⅝ yard 39-inch contrasting for yoke and cuffs. View "B" size 18 (36 bust), requires 3⅝ yards 39-inch, or 2⅝ yards 54-inch plain material. Price 25 cents the pattern.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dressmaker. Price of the book 10 cents the copy.

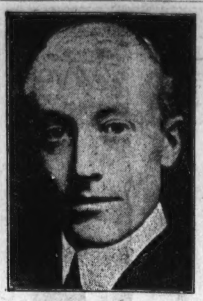
B.C. Apples For New York

Of the British Columbia apple crop now being harvested in the Okanagan Valley, it is expected that 150 carloads will go direct to New York, although the principal market will be in the Prairie Provinces of Canada. An estimate of the crop is given at 1,250,000 boxes from the Okanagan and Kootenay Districts. The apples are of excellent quality and the yield is the best in years.



ROSS H. McMASTER,
Director, Canadian Pacific Railway.

Ross Huntington McMaster, director of the Canadian Pacific Railway, was born in Montreal on October 11, 1880, the son of William and Lucy (Greene) McMaster; he has lived practically all his life in that city. He was educated at the Montreal High School and Collegiate Institute. His business career began with the Sherwin-Williams Co., of Montreal and Cleveland, of which he became Assistant to the Vice-President and General Manager in 1897, a post he held until 1903. In the latter year he was made assistant to the Vice-President and general manager of the Montreal Rolling Mills Company. On the formation of the Steel Company of Canada he was appointed manager at Montreal, and is now president and director.

Discover New Weeds

Two New Perennial Weeds Are Located At Saskatchewan Points

Two new weeds have been discovered in Saskatchewan and steps have been taken by the provincial department of agriculture to eradicate them before they get a hold on the land.

One is a variety of perennial rape which was found in the Grenfell district, and the other is Russian knapweed, found at Landis, Gull Lake and Tompkins.

The patches where the new weeds were discovered have been staked after the weeds were dug up and destroyed and they will be closely watched by department officials next spring to ensure that any roots that may have been missed this fall do not get a chance to grow.

Both weeds are perennials and it is thought they may have been introduced into the province through the medium of small seeds such as alfalfa.

Mr. Samuel Chapman, leader of the Liberal Delegation of the British Empire Parliamentary Association which has just completed a tour of Canada, displays an intelligent interest in the largest passenger engine in the British Empire. The new Canadian Pacific 3100 was exhibited to the visiting Britishers at Windsor Station.

Federal Government Willing To Aid Community Efforts In Move to Promote New Industries

Industrial surveys are expected to be very much to the fore in Canada in the near future as a preliminary to greater development of the natural resources of the Dominion. Following the announcement of Hon. Chas. Stewart, Minister of the Interior, that his department would be glad to co-operate with Chambers of Commerce, Boards of Trade, City Councils, or other local public organizations prepared to carry on such work, there are many indications that raw materials, markets, labour, transportation and other aspects affecting development will be studied on a broad and comprehensive scale in many Canadian cities in the near future.

The extent to which the federal government is prepared to co-operate with local public bodies was recently outlined by an officer of the Department of the Interior, in a conference with the industrial executive of the Victoria Chamber of Commerce. All the resources and industrial information possessed by the Natural Resources Intelligence Service and the services of officers of the department will be available to the cities of the Dominion when they are considering plans for industrial expansion. Industrial engineers would proceed to various centres of Canada when required, and would work in co-operation with committees of the Chamber of Commerce, Board of Trade, City Council, or whatever public organization was undertaking the industrial survey.

As the result of an industrial survey carried out by the Manitoba Development Board, sixty-five new industries had been established and at Windsor the prospects are bright following a survey there. It was pointed out that the department had already been successful in assisting in the establishment of entirely new industries in Canada as a result of studies conducted in Ottawa, as in the starting up of a fish meal industry on the Pacific coast which had since been followed by many other plants. Another instance was in the manufacture of casein from skimmed milk, now carried on at a number of points in Canada, since a survey of the possibilities for manufacturing this material was conducted by the Natural Resources Service. One firm in the Fraser Valley is now producing 70,000 pounds of this material per month.

Another recent and unique instance of the effectiveness of such investigations was in the starting up of an industry in the Maritime Provinces to manufacture an insulating quilt or blanket from eel grass, a seaweed occurring abundantly along the shores of the Maritime Provinces and lower St. Lawrence. This industry will add another manufactured product to the list of imported materials replaced by Canadian ones.

The industrial survey is properly a community affair, the success of which depends primarily upon the initiative and enterprise of the local business men. No outside agency, it is contended, can bring anything like the same permanent interest and detailed knowledge to bear. The industrial survey calls for a well organized effort of all local business interests including representatives from each type of industry already established, members conversant with transportation conditions, banking and power facilities, the housing situation, labour conditions, etc. It requires the whole-hearted support of manufacturers and merchants. In a word, to achieve success, it requires concentration of the collective business brains of the community and on top of that experience in industrial investigations. In this latter requirement the Minister of the Interior has stated that his department is solidly behind the industrial survey and is anxious that organizations which undertake such work should make free use of the experience and investigatory facilities of the Natural Resources Service.

Rich Mineral Areas In Southern Manitoba

Prospectors Report Finding Gold, Silver, Copper and Tin

Vast areas of land, approximately 70 miles southeast of Winnipeg, are rich in mineral products including gold, silver, copper and tin, according to a statement issued by Mayor E. J. Swain, of St. Boniface, who returned to the city from a prospecting trip in Southern Manitoba.

Mayor Swain, in company with one of the oldest prospectors of Manitoba, has been investigating the southern areas for the last two years. The couple have made numerous trips to the land, which for the most part is barren and unpopulated.

The pioneer prospector, who accompanied Mayor Swain on his various trips to the southern area, is the man who assayed the first rock that came out of The Pas. He is a practical chemist and on the recent prospecting trips has done practically all of the assaying.

Alberta To Exploit Tobacco

Experiments in tobacco growing by the Department of Agriculture, at Lethbridge station, have proved so successful that they will be continued, according to a statement made by Dr. J. H. Grisdale, of Ottawa, deputy minister of agriculture. It is the intention to continue the experiments, the results having been fairly satisfactory, as it is believed there is a big opportunity for that industry in Alberta.

Demand For Shingles

Shingle mills have all the business they can handle and orders are booked up so far ahead that buyers are complaining about slow deliveries. On August 24th the Consolidated Shingle Mills of British Columbia Ltd., had orders for 741 carloads of shingles.

"Good-day, Mr. Policeman."

"How can you tell I am a policeman if you are blind?"

WORLD HAPPENINGS BRIEFLY TOLD

The demand for registered seed next year will be even greater than in previous seasons in the opinion of the Saskatchewan Registered Seed Growers' Association in Moose Jaw.

Dr. S. Parkes Cadman, chairman of the China famine relief organization in New York City, received information of the reported massacre of about 200,000 persons by fanatic Moslems in Kansu Province, China.

For the twelve months ending August 31, the Dominion Bureau of Statistics reports that alcoholic beverages valued at $23,816,178 were exported from Canada to the United States.

More than 1,000 Saskatchewan old timers were in receipt of old age pensions under the plan approved at the last session of the provincial legislature at the end of September and there are about 2,000 more applications under investigation.

Capt. T. P. Worshop, 64, formerly Port warden of Vancouver and one of the first to operate a vessel on the upper Yukon river during Klondike gold rush, died at his home in Kamloops, B.C., after an illness of several months.

Stocks of surplus military explosives, including more than 126,000 pounds of TNT, accumulated by the government during the World War, have been put to industrial uses, the United States Bureau of Mines reports.

Men would do well to copy the fair sex in the matter of scant garments, Dr. Gerald S. Webb, of Colorado Springs, told physicians conferring at the New York Academy of Medicine. Short skirts and light clothing worn by women prevent pneumonia, he said.

Animals
Minard's heals bruises, sores, sprains, saddle boils, distemper, etc.

MINARD'S "KING OF PAIN" LINIMENT

Knew He Was Safe

"I think we should tak' a walk doon the toon and see the shops, lassie," said an Aberdonian to his wife.

"But they're a' shut," she replied.

"D'ye think I didna ken that?" he said. "I'm no' daft a' th' gither."

HE DIDN'T THINK DYSENTERY COULD BE RELIEVED

Mr. John Melling, Fenner, Alta., writes:—"I am a returned soldier, and when I came home from overseas I suffered greatly with dysentery. The doctor said it was chronic and did not think it could be relieved. However, he doctored me for quite a while, but did me no good. One day the druggist asked me if I had ever tried

DR. FOWLER'S EXT. OF WILD STRAWBERRY

"On his recommendation I bought a bottle and after I had taken it got some relief, so I got two more, and have never had the dysentery since 1925."

Put up only by The T. Milburn Co., Limited, Toronto, Ont.

Shortage Of Butter

Canadian Production Not Keeping Up With Domestic Requirements

J. A. Caulder, President of the National Dairy Council of Canada, told the delegates to the annual meeting of the Dominion Mortgage and Investments Association, that Canada this year would be 45,000,000 or 20,000,000 pounds short of supplying her own butter requirements. The dairy industry has not kept pace with increased population, he said, and Canada had the highest per capita consumption of butter in the world—approximately 28 pounds a year.

WHEN YOUR BABY CATCHES A COLD

In spite of all precautions little ones will take colds—especially during the changeable days of our Fall season. When the first symptoms appear—sneezing, redness of the eyes, running nose—Baby's Own Tablets should be given at once. They will rapidly break up the cold and prevent more serious complications.

Mothers who keep a box of Baby's Own Tablets in the home always feel safe. In fact they are like having a doctor in the house. They are a gentle but thorough laxative that sweetens the stomach and regulate the bowels, thus driving out constipation and indigestion and relieving the baby of the many childhood ailments which are the direct result of a clogged condition of the bowels or sour stomach. They are absolutely safe—being guaranteed to contain no drug at all harmful to even the youngest babe. They cannot possibly do harm—they always do good.

Baby's Own Tablets are sold by all medicine dealers or will be sent by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Value Of Tourist Traffic

No Official Figures On Amount Of Money Spent Have Been Given Out

How much money do people from the United States leave in Canada every year? No official figures have been given out, but guesses run all the way from $100,000,000 to $400,000,000. The Royal Bank of Canada estimates that $275,000,000 was left by United States visitors to Canada in 1927, compared with $140,000,000 in 1925.

This year traffic has been unusually heavy. In Quebec, which 3,430 cars from the United States entered in 1925, 425,000 cars were expected to enter this year. Ontario shows a much larger figure, but the length of stay is less.

It is estimated that 3,000,000 cars from the United States will have entered Canada before the close of the present year. Canada, seeing what is ahead, is busy spending millions of dollars for good roads.

An Oil Without Alcohol.—Some oils and many medicines have alcohol as a prominent ingredient. A judicious mingling of six essential oils compose Dr. Thomas' Eclectric Oil, and there is no alcohol in it, so that its effects are lasting.

Has Visited Many Countries

The Prince of Wales must by this time be one of the most widely travelled young men of his age. When he returns in January he will have officially visited 27 countries — Canada, Australia, India, South Africa, New Zealand, Malta, Gold Coast, British East Africa, Kenya, Tanganyika, Rhodesia, Nigeria, Basutoland, Sierra Leone, Malaya, West Indies, United States, Argentine, Chili, Egypt, Spain, France, Belgium, Uruguay, Central America, China, and Japan.

Fashion

1576

A Frock Of Distinction

Decidedly smart is the frock pictured here. The pointed bodice is joined to the skirt having plaits at front and a slightly flared back, a shaped collar, and long sleeves gathered to deep cuffs. No. 1576 is in sizes 34, 36, 38, 40 and 42 inches bust. Size 36 requires 3½ yards 39-inch or 2½ yards 54-inch material, and ⅝ yard 39-inch contrasting for View "B." Price 20 cents the pattern.

Every woman's desire is to achieve that smart different appearance which draws favorable comment from the observing public. The designs illustrated in our new Fashion Book are originated in the heart of the style centers and will help you to acquire that much desired air of individuality. Price of the book 10 cents the copy.

Touches that Add Style to Dresses

By MAE MARTIN

It's amazing to see how easily out-of-style dresses are transformed by a few buttons, a little braid and the quick magic of home tinting or dyeing.

Your tinting or dyeing will always delight you, if you are sure to use only true, fadeless Diamond Dyes. Tinting with them is easy as bluing, and dyeing takes just a little more time. New colors appear like magic right over the old colors. They give all the shades, with never a hint of that redyed look which comes from inferior dyes. Insist on Diamond Dyes and save disappointment.

"Color Craft," my big new book of dollar-saving hints, will be sent you FREE. Write Mae Martin, Diamond Dyes, Windsor, Ontario.

Women voters outnumber men in four constituencies in England, and in two of these, Cheltenham and one Glasgow division, the present M.P.'s are bachelors.

Women and Asthma. Women are numbered among the sufferers from asthma by the countless thousands. In every climate they will be found, helpless in the grip of this relentless disease unless they have availed themselves of the proper remedy. Dr. J. D. Kellogg's Asthma Remedy has brought new hope and life to many such. Testimonials, sent entirely without solicitation, show the enormous benefit it has wrought among women everywhere.

It is said that human beings unconsciously associate a color with a particular sound. To the pedestrian a motor horn suggests both black and blue.

Those who thought that mining was an underground operation will be surprised at the growing use of aeroplanes in that industry.

For COLDS of All the Family

This Modern External Treatment is best

Mothers prefer the external treatment, Vicks VapoRub, for children's colds, because it avoids the constant "dosing" so disturbing to delicate little stomachs. You just rub it on the throat and chest at bedtime.

Other members of the family prefer Vicks for their own colds, because it is convenient, and quick in bringing relief.

For free sample, write Vick Chemical Co., No. 1 Lee St., Greensboro, North Carolina, U.S.A.

Acts 2 Ways at Once

SUNDAY SCHOOL LESSON

OCTOBER 21

CHRISTIAN STEWARDSHIP

Golden Text: "First they gave their own selves to the Lord."—2 Corinthians 8.5.

Lesson: 2 Corinthians 8.1-9, 15.

Devotional Reading: Psalm 95.1-7a.

Explanations and Comments

The Example Of Christian Generosity Given By the Churches In Macedonia, 8.1-5.—Paul calls to the mind of his readers, the Christians of Corinth, the example in generosity of the Macedonians (the churches of Philippi, Thessalonica and Beroea), and ascribes the latter's large collection for the poor at Jerusalem to God, whose grace, or love, moved them to generosity. Affliction which had put their Christian character to the proof (1 Thess. 2.14), their overflowing joy (1 Thess. 1.6), and their dire poverty, had resulted in spiritual riches, great liberality. For they gave willingly as they were able, and indeed more than they were able, as he, Paul, could testify. Perhaps Paul at first thought the Macedonians too poor themselves to share in this collection, for he now says that they begged the privilege of joining in this grace and fellowship. "The contribution of the Macedoian Christians was really comparable to the giving of the widow's mite."

"Strange to say, it is not those to whom the gospel comes easily, and on whom it imposes little, who are most generous in its cause. On the contrary, it is those who have suffered for it, those who have lost by it, who are as a rule most open-handed. Comfort makes men selfish, even though they are Christian; but if they are Christian, affliction, even to the spoiling of their goods, teaches them generosity."—James Denney.

The collection was to minister to "the saints" (Paul's term for Christ's followers) at Jerusalem. There were several reasons for their poverty. "The religious prejudices of the Jews, amongst whom they lived, entailed upon them constant social persecution, even in times of comparative peace; the claims of Christian visitors upon their hospitality were heavy; the maintenance of the apostles and of a disproportionate number of Christian teachers threw on them an undue share of Christian burdens. But whatever the causes of their poverty, it was certainly chronic."

As a vermifuge an effective preparation is Mother Graves' Worm Exterminator, and it can be given to the most delicate child without fear of injury to the constitution.

Scotchmen are said to be untidy, but they like their whisky neat.

Demand For Registered Seed

The demand for registered seed next year will be even greater than in previous seasons in the opinion of the officials of the Saskatchewan Registered Seed Growers' Association in Moose Jaw.

The Oil Of Power.—It is not claimed for Dr. Thomas' Eclectric Oil that it will remedy every ill, but its uses are so various that it may be looked upon as a general pain killer. It has achieved that greatness for itself and its excellence is known to all who have tested its virtues and learned by experience.

"You're doing well, young fellow," said the shipping clerk encouragingly, "the foreman praises you to the skies."

"I'd sooner he'd praise me to the boss," was the quiet reply.

FINAL PAYMENT OF WHEAT POOL FOR 1927 CROP

Winnipeg.—Cheques for the final payment of 2¼ cents per bushel on the 1927 wheat crop are now in the mail for Wheat Pool members in Manitoba, Saskatchewan and Alberta. Of the total amount distributed, amounting to $4,722,105.89, Manitoba's share is $251,873.53. The Saskatchewan Pool received $2,870,820, and Alberta, $1,600,143.75.

"The final payment this year is a flat payment on all grades of wheat," it was stated by E. B. Ramsay, general manager of the Central Selling agency. "As all marketing costs and all deductions for commercial and elevator reserves were made from the last interim payment, the Pool's final price for the past year on No. 1 Northern, Fort William, was $1.42½ per bushel, as compared with $1.42 paid last year, $1.45 in 1926, $1.66 in 1925, and $1.01 paid by the Alberta Pool in 1924."

Regina.—President A. J. McPhail commented on the fact that the payment this year is somewhat earlier than the final payment from the 1926 crop, which was made on October 19 last year.

"A detailed report of the operations of the Pools for the crop year 1927-28 is, of course, not yet available, and will not be available until the annual meeting of delegates which takes place on November 20, but it is sufficient to say at this time that the Pool management are satisfied with the showing made during the past year. They are confident that many Pool members did not expect the final price to be so generally satisfactory, and I can only repeat what I have already stated on previous occasions, that the Pool organization, as a wheat marketing agency, can only be effective to the extent that it is both efficient in management and in control of the largest possible volume of the total marketable wheat from Western Canada. It is, I think, generally admitted that the Pool organization is to be commended for the progress made to date in building up so rapidly such a huge organization, and we hope that our efforts will be assisted in the future by the addition of many million bushels more of Saskatchewan wheat, now marketed outside of the Pools."

Tuberculosis In Cattle

Disease Being Eradicated By Means Of Restricted Areas

Ottawa, Ont. — Tuberculosis in Canadian cattle is rapidly being eradicated through the operation of the restricted area plan, Dr. George Hilton, veterinary director-general of the department of agriculture, declares.

Where in some areas as high as 7.9 per cent. of cows had been found infected on the first tests, re-tests had shown a general falling off to approximately one-half of one per cent.

"There is a persistent and increasing demand upon the department for restricted areas," Dr. Hilton said.

"Farmers have found that by replacing infected animals with high class stock they receive greater financial returns with less work."

Robbery Motive Suspected

Saskatoon.—Belief that Mike Harrison, whose body was found on blood-soaked newspapers beside the C.N.R. tracks near Saskatoon, was the victim of foul play, was strengthened when it was discovered he had received $195 pay from a farmer a few days before his death. There was only 15 cents in his pocket when he was found dead, his skull badly smashed, and wounds on his back.

Floods Hamper Relief Work

West Palm Beach, Fla.—Rehabilitation tasks in the hurricane devastated area about Lake Okeechobee have been seriously hampered by flood waters. The lake and surrounding streams and rivers were out of their banks after heavy rains. Thousands of acres of farm land were under water.

Unemployment Insurance

Question To Come Up For Consideration When Ottawa House Meets

Ottawa, Ont.—Unemployment insurance, which was the subject of investigation by the industrial committee of the House of Commons last session, will be given further consideration when parliament convenes again. This assurance was given by Hon. Peter Heenan, Minister of Labor, who stated that the majority of the provinces of the Dominion already had declared themselves upon the proposal.

In its report the industrial relations committee accepted and endorsed the principle of unemployment insurance, based on compulsory contributions derived from the state, the employer and the employee. The report further pointed out that the responsibility for such legislation primarily rested with the provincial governments.

On the basis of the committee's findings the department of labor communicated with the various provinces to ascertain which of them would be prepared to consider adopting the proposal and to what extent they were willing to go at the present time. Mr. Heenan intimated that these replies would be submitted to parliament at the next session. The minister refused to divulge the views of the provinces in the matter.

New Varieties Of Seed Wheat Ready

Demand For Garnet and Reward Greater Than Supply

Ottawa.—Nearly 25,000 bushels of seed wheat of the Garnet and Reward varieties will be provided by the Department of Agriculture this year, it is learned. The demand is stated by officials to be greater than the supply.

The new varieties were developed by L. H. Newman, Dominion cerealist, at the experimental farm here. The grain ripens from seven to ten days earlier than other varieties.

Last year's sale of seed grain amounted to approximately 3,000 bushels. So satisfactory have the results been that this year's production at the experimental farm will not nearly meet the demand. It is sold to the farmer at $3 per bushel.

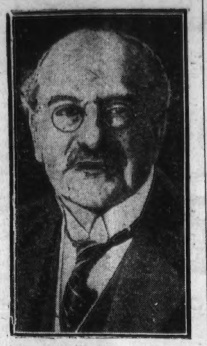
Sails For Antarctic

Commander Byrd Commences Expedition To South Polar Regions

Los Angeles, Cal.—With thousands of his fellow countrymen at the harbor to wish him well, Commander Richard E. Byrd, U.S.N., turned his face this afternoon toward his newest adventure in the ice-crusted regions of the South Pole.

The expedition, which embraces 82 members, will cost approximately $1,150,000. The money was raised by contributions from all parts of the United States. The primary purpose of the trip is to make accurate maps and procure imprtant meoteorological and other data of the South Polar regions.

HAS SETTLEMENT PLAN



Lord Melchett, formerly Sir Alfred Mond, who is in Canada. He proposes land grants to settlers by the Dominion and the financing of the undertaking by Great Britain as a solution to the British unemployment problem.

Order Will Be Repealed

Canadian Residents Working In U.S. Are Not Immigrants According To Ruling

Washington, D.C.—Order eighty-six of the United States immigration department may be formally repealed within the next week or so. Promulgated on April 1, 1927, the order caused international turmoil until the Supreme Court of the United States technically nullified it by refusing to review the judgment of a New York circuit court of appeals, setting aside its provision that Canadian residents working on the U.S. side of the border were really immigrants, and must conform to all requirements of the U.S. immigration laws.

Conditions Are Improving

Department Of Labor Reports Fewer People Unemployed

Ottawa, Ont.—Material improvement in employment conditions throughout Canada during the current year is revealed in figures dealing with employment placements released by the department of labor. Up to the end of August, employment was found for 285,714 applicants at the various public employment offices in the Dominion. In the first eight months of last year work was found for 239,570 applicants.

China Inaugurates President

Shanghai, China.—General Chiang Kai Shek has been inaugurated president of China. For the first time in 17 years of her history as a republic, China thus attained a unified central government. This was a national holiday. Chiang was installed at Nanking, the Nationalist capital, with impressive ceremony, amid general rejoicing. He was made chairman of the Nationalist government council, with the title of president.

Farmhand To Stardom

Gordon McLeod, Now Touring West, Once Worked On Saskatchewan Farm

Winnipeg, Man.—A former Saskatchewan farm hand is now visiting the west under circumstances which can best be described as offering several varieties of vivid contrast Years ago, as a lad, he was one of the humble toilers at the Indian Head Experimental Farm. He also, during that portion of his career, worked for a time at the Imperial Hotel there. At this moment, he is a stage celebrity.

The ex-harvester and student of the evening chores is Gordon McLeod, now heading his own London company on a transcontinental theatrical tour after being pitchforked into fame last year when he took Sir John Martin-Harvey's place on an hour's notice. Sir John was stricken ill in Toronto, and young McLeod filled the breach so sensationally that a number of Canadian financiers came forward and offered him the means to step into stardom.

Between the date of his earlier exertions at Indian Head and his present visit to the same vicinity, he has played in China, Japan, Burmah, from Cairo to Singapore, and from South Africa to London. During the war, he served under General Smuts in the campaign against German East Africa and later, as a junior lieutenant in France.

He has previously been starred in London, but this present year makes the first occasion on which he has scaled the theatrical heights for an international tour.

Many Killed When Building Collapses

Faulty Material and Hasty Construction Blamed For Accident

Prague.—The catastrophic collapse of a newly-constructed seven-storey building here may have taken a toll of 64 lives or more, it is feared.

Most of the victims were workmen putting the finishing touches on the building. Faulty materials and too hasty construction are blamed for the collapse.

The architect in charge of the construction of the building committed suicide when informed of its collapse.

A woman pushing a baby-carriage was buried beneath the avalanche of brick and masonry with her child. A chauffeur passing in a motor car suffered the same fate, as did two coachmen and the four horses pulling their vehicles. About a hundred workmen were in the building when it collapsed.

Will Reveal Pact

London, Eng.—It is understood that the cabinet has decided to publish a white paper containing full details of the discussions leading to the Franco-British naval compromise proposals with relevant documents and the replies from the powers consulted as soon as certain outstanding formalities are completed.

WELSH IMPERIAL SINGERS

The famous Welsh Imperial Singers who arrived in Quebec on the White Star liner "Laurentic" recently. They are on a world tour under the leadership of Mr. R. Festyn Davies.

A WELCOME FOR SETTLERS FROM THE BRITISH ISLES

London, Eng.—"No bigger untruth was ever offered in respect to a nation and a country than to say that Canada does not wish to have migrants from the British Isles," Premier Mackenzie King of Canada declared emphatically in the course of a lengthy speech on Canada's immigration question and diplomatic representation abroad at the annual banquet of the Canada club here.

"Not only do we wish to have but we are prepared to advance money for their passage and indeed in some cases pay the entire passage for those whose labor we specially need," the Canadian Premier stressed after outlining the prosperity of Canada at present and the exceptional opportunities the Dominion held for migrants.

Hon. Charles Dunning, minister of railways for Canada, followed Premier King with a statement that he believed many of the British miner-harvesters who went to Canada this fall would remain in the west.

This experiment was merely the extension to Britain of the practice followed in Canada for 20 years, he remarked. Eastern Canadians had been going west on harvest excursions for two decades and many had settled permanently in western Canada.

The speaker strongly deprecated the idea that any considerable proportion of people without experience in Western Canada could be expected to start immediately to become successful farmers on their own account. Assisted settlement schemes could not in this way be wisely extended, he added.

A "certain type of propaganda appearing from Canada in the British press, conveying the impression that Britons are not wanted in Canada" was strongly condemned by the minister.

Winston Churchill Joins Union

Chancellor Of Exchequer Is Identified With Building Trade Workers

London, Eng.—Winston Churchill, chancellor of the exchequer, who made quite a reputation as a bricklayer while handling a trowel in the building operations at his home in Kent last summer, has made himself one with his fellow craftsmen by joining the Amalgamated Union of Building Trades Workers. The chancellor who paid his entrance fee by cheque will receive his union card shortly.

Notifying the new recruit to trades union ranks that he will be pleased to enroll him as a member, James F. Lane, divisional secretary, sent Mr. Churchill a copy of the rules mentioning the entrance fee of five shillings and a weekly contribution of nine pence.

"This," Lane wrote, "entitles you in addition to trade protection to one pound a week should you be called out on strike and to additional unemployment benefits should you at any time fall out of employment."

Under the regulations any one employing the chancellor as a bricklayer in the future must pay him the minimum wage.

Chamberlain Will Travel Across Canada

Reaches Victoria October 29, and Sails From Quebec November 15

Ottawa.—Sir Austen Chamberlain's Canadian schedule has been given out here. He will arrive at Victoria on the afternoon of Monday, Oct. 29, remaining there until Wednesday, Oct. 31, when he leaves for Vancouver, where he spends Wednesday night. Sir Austen will leave Vancouver for Banff on Thursday morning. He will leave Banff on Sunday, Nov. 4, and arrive in Toronto early Wednesday morning, Nov. 7.

The next evening he will leave for Ottawa, arriving in the capital on the morning of Friday, Nov. 9. His stay in Ottawa will continue until Tuesday, Nov. 13, when he leaves to spend one day in Montreal. From Montreal, Sir Austen goes to Quebec, arriving in that city on the evening of Nov. 14. He will sail from Quebec the next day.

Walther League's Meeting

Twelve members were present at the last meeting of the League. The meeting opened by reading the 13th chapter of Corinth. One-half hour of Bible study followed, in which all took part. Minutes of the previous meeting were read and adopted.

Messrs Con. Fuhr and Wm Miller were accepted as members. Miss Elizabeth Lutz was made an honorary member. A report was made by the Hospice Committee. The Treasurer's report was read and adopted. A motion carried that the Librarian be requested to bring the Walther League album along to the next meeting.

The Convention report was read by Miss Mary Enders. A motion carried that two Coral books be bought—one for the church and one for the school in town.

The secretary was instructed to inform Walther League Secretary that he should appoint people to help him start the Messenger and Seals campaign.

Miss A Eberhardt was elected as District Bulletin representative.

Messrs J Rosnau, J Schoep and Val Kulak were elected as a committee to ask the congregation what they think about having English services. The meeting then closed with the Lord's Prayer.

AUCTION SALE OF INDIAN LANDS.

THERE will be offered for sale by public auction, at an upset price to be made known at sale, at the Village of Spruce Grove, in the Province of Alberta, on Thursday, the 1st day of November, 1928, at the hour of 10 a.m., the following parcels of land in the Michel Indian Reserve, in the Province of Alberta and Dominion of Canada; The N.W. and S.W. 1-4 of Section 4, S.E. 1-4 of Section 20, N.E. and N.W. 1-4 of Section 21, and S.W. and S.E. 1-4 of Section 21, all in Township 54, Range 27, West of the 4th Meridian, and N.W. 1-4 of Section 25, S.W. 1-4 of Section 27, S.E. 1-4 of Section 20, N.E. and N.W. 1-4 of Section 34, and N.W. 1-4 of Section 36, all in Township 53, Range 27, west 4th Meridian.

The lands will be offered for sale in quarter sections. Terms of sale will be cash, or one-tenth cash and the balance in nine equal annual instalments with interest at 6 per cent on the unpaid purchase money. Accepted checks will be taken in lieu of cash.

Information regarding the lands in question may be obtained on application to the undersigned, or to the local Indian Agent, at Edmonton, Alberta.

A Double Escape

DOCTOR'S DAUGHTER'S STORY

Another Toronto home provides evidence of how a simple cut, scratch or bruise, may pave the way to deadly blood-poison, and how vital is the need for keeping Zam-Buk, always handy!

When called upon at 3, Bushness Avenue, Mrs. J. E. Zealley, daughter of the late Dr. Bevan, of St. David's, S. Wales, said:—"My boy Alfred scratched his leg with the brass tag of a shoe lace. A nasty poisoned sore developed and it defied all the usual ointments. Hearing splendid reports about Zam-Buk I decided to give it a trial. To my great relief, the balm soon caused healing to set in. All inflammation and poisonous matter was quickly removed by Zam-Buk, and it healed the sore without leaving a scar.

"Again when I fell over a steel fender and injured my knee badly, Zam-Buk alone saved me. My daughter, a nurse, was of the opinion that only an operation could remove the mass of inflammation and pus. But I again pinned my faith to Zam-Buk, and it cleansed and healed the wound." All druggists and stores sell Zam-Buk at fifty cents per box. Equally valuable for eczema, pimples, cuts, burns, etc.

THE CRIMSON WEST

ALEX. PHILIP

Published by Special Arrangement With Thomas Allen, Publisher, Toronto, Ont.

. . . CHAPTER III.—Continued. . . .

Janet laughed. "I will go now to give you the chance." With a playful flick of her whip toward Douglas, she was off like an arrow.

Donald turned to his friend. "I hope that you are satisfied now that you have made an ass out of me."

"Quite happy, old dear. I didn't find it a hard job."

Donald laughed. "I'll race you to the gym."

As the bout was to take place on Monday, this was to be the last day of training. The fans who had flocked to see Donald in his work-outs admitted that he had wonderful speed, but would be unable to stay the twenty rounds with the formidable Garrieau. The verdict of the knowing ones was that it would take more than a snappy left hand to lift the laurels from the champion who possessed the virtue of the terrible punch.

To the boxer training is a trying ordeal. The daily grind of road-work, bag-punching, rope-skipping and pulley work becomes monotonous. The nerves become frayed, and if the weight has to be materially reduced the boxer develops a bad temper and is anything but a cheerful companion.

As Donald prepared for bed that night he thought with relief that the morrow would be a day of rest. "I'll be glad when it's over," he mused. His meditations were interrupted by a rapping on the door. In answer to his invitation to come in, the door opened and a small man of unprepossessing appearance entered.

The visitor was indeed a most repulsive man, of uncertain age, and with skin of a sickly yellow. One eye was sightless, which he ascribed to an accident during a football game. Those familiar with his shady past averred that it was caused by the vigorous application of an adversary's thumb during a bar-room brawl.

"I'm Garrieau's manager," he said importantly.

"What do you want?" demanded Donald shortly.

"Now, see here, Kid. We've got a dead cinch to cop de change. It's dis way. Youse is a amachoor widout a chance in de woild to beat de Slugger. Get me? Well, dere ain't a bit of sense of de Slugger beatin' you up for nuttin', so we frames de bout. De heavy bettin' will be on de Slugger, so we fixes it for de Slugger to go 'till about de tent' round, so's it go 'till about de tent' round, so's to give de fans a run for dere money. We gets all de money dat we can beg, borrow and steal and puts it on you to win. We puts up a slam-bang fight. You can take de drop a couple of times, and den down goes de Slugger. De fans will just eat it up. De tent' round will find you stannin' toe to toe, den de last minute you sends home de fake sleep-punch. De boobs will t'ink it's on de square. Den in a mont' we gets a return fight and we pulls off de 'grudge stuff' and we packs de house. Of course, we have to win den, and all our money will be placed on de Slugger. Dat means dat we cop de change twice. Get me?" His ugly lips parted in what he intended as an ingratiating smile. "You come up to de club tomorrow and we rehearses de whole t'ing. Get me?"

Donald's face turned pale with rage. "I 'get you,' you damned little rat!" he rasped. Seizing the surprised Pursell by the collar, he jerked him to his feet, dragged him to the door, and threw him out with such force that he struck the wall with a thump and fell in a heap n the floor.

Pursell rose with a snarl that showed his yellow teeth. A look of bestial hate shot from the one gleaming orb. "We'll kill you Monday, you ——" The air was filled with the viest objurgations.

Closing the door, Donald walked to the windows, and opened them wide, as though to rid the room of the air his visitor had breathed. "I never dreamed there was so much rottenness in the shape of a human being," he said disgustedly.

At the same hour, at the other side of the city, Douglas was also entertaining a visitor, but of a very different type. He had just entered his room when he heard his sister's voice.

"May I come in a minute, Doug?" Janet came to the point quickly. "Who is this Mr. McLean who was with you today?"

"Oh, that was—er—Donald McLean," he answered evasively.

"You know what I mean. Who is he? What is he, Where does he come from?"

"I'll look him up in Bradstreet's."

"Do be serious, Doug."

"Is it a serious matter, Sis?"

"I think he is interesting," she replied hesitatingly.

"So do I. I liked him the first time I saw him," said Douglas warmly.

"Well, you haven't answered my questions yet," persisted Janet.

For all his fluency of speech Douglas was for the moment nonplussed. "Let's see—er—what was the first question?" He was sparring for time.

"Don't quibble, Doug. Where did you meet him?"

"I met him a long time ago through an intimate friend by the name of Pettray. McLean is his partner. Firm name McLean and Pettray."

"What is their business?"

"Oh—er—glove business."

There was an interval of silence. "I'm not a bad little liar," thought Douglas. "I wonder if she's finished." He yawned strenuously and stretched his arms. "My! I'm sleepy," he said.

Janet rose slowly and moved toward the door.

"Are you going to ask him out some time?" she inquired.

"Sure thing!"

At the door she turned. "Will you let me know when he is coming?"

"Yes, dear."

"Good-night, Doug."

"Good-night, Sis."

Douglas stood for a while staring into nothingness. "I don't blame her," he said aloud. "I don't know anything about him, but I'll bet he is a real man."

CHAPTER IV.

The arena and the grand-stand were packed, the S.R.O. sign having been hung out at two o'clock. The cosmopolitan crowd sat in solid ranks, tier upon tier, from the select ringside seats to the topmost rail. Judges, lawyers, doctors and bankers sat with labourers, miners, loggers, bartenders, and bootblacks. Men of the underworld sat side by side with men that make and administer our laws. There was a sprinkling of Japs, Chinamen and negroes. The turbanned Hindu made bright splotches of colour here and there in the vast sea of faces. Of class distinction there was none; all welded as one in the love of the boxing game.

The preliminaries were over, and the vast crowd had settled in their seats. Suddenly there was a stir, a craning of necks. Down the aisle on the west side of the arena came Donald, followed by Andy and the two seconds, the latter carrying buckets, sponges, towels and bottles. Donald wore a dark-coloured bathrobe thrown over his shoulders. There was a murmur of applause that swelled to a tumult as he clambered through the ropes. He seemed cool as Andy piloted him to the corner, but as he sat down and stretched out his long legs, he appeared ill at ease.

Although the crowd had given him a handsome welcome, prophecies were shouted down from the top seats that he would not last very long with the formidable champion. Donald was palpably nervous, as evidenced in the quick turning of his head and the shuffling of his feet. He looked slight and frail as he leaned forward in his chair, the black bathrobe accentuating the paleness of his face. A feeling of friendlessness came over him as he gazed at the huge, strange crowd who were loudly predicting his defeat.

A well-known judge, wearing glasses and a big black hat, turned to his companion. "It's a shame, Tom, to match that slim boy with a brute like Garrieau."

The one addressed was one of the City's leading dentists and an ardent boxing fan. "Don't you believe it, Bill," he returned. "Just wait until you see this boy strip."

"Here he comes!"

A roar of applause greeted the champion as he came down the east aisle bowing right and left in answer to their plaudits. His dark, massive body seemed fairly to shine as he leaped to the ring with easy grace and stripped off his robe. He stood in his corner with his hands on the ropes, shuffling his feet in the resin, still smiling and glancing about the arena. Evidently he loved the limelight.

(To Be Continued.)

"The wonder metal of the age" is a fitting term for Aluminum. Its lightness, brightness, flexibility, freedom from rust, and many other good qualities, make it adaptable to a multitude of uses, a chief one being as a container par excellence for good tea—Red Rose Tea is packed only in this modern metal package. 12W

Teeth and Health

Issued By The Canadian Dental Hygiene Council and Published By The Saskatchewan Dental Society

THERMAL CHANGES

You are fond of ice cream during the hot weather, and of iced drinks. But you noticed that upon your last visit to the soda fountain, a certain tooth pained momentarily as you were enjoying your favorite dish.

Or, some toothsome sweet made it "sting"; and also, you found it more comfortable to take your tea not quite so hot. But of course, it isn't bad enough to make a fuss over; a little care exercised and it will be alright again.

So you think. Now what is happening?

You have suspected, and rightly so, a small cavity.

While Nature saw fit to place nerve and blood tissues within the tooth, yet she protected them with the very hard outer covering, the enamel which was meant to remain intact throughout the life time.

But through no fault of Nature, disease has crept in and her plans yet baffled, for she has placed just yet baffled, for shhe has placed just within the enamel covering, tiny tissue filaments which communicate with nerve endings in the pulp chamber. These respond to thermal changes, sweets and acids, and instantly there is telegraphed to headquarters in the brain, the warning that something is wrong—just as when you put your finger on a red hot stove.

So forewarned, there is yet ample time to prevent more serious trouble if you would but do your part and act promptly by having repairs made.

But do you?

If Miller's Worm Powders needed the support of testimonials they could be got from mothers who know the great virtue of this excellent medicine. But the powders will speak for themselves and in such a way that there can be no question of them. They act speedily and thoroughly, and the child to whom they are administered will show improvement from the first dose.

FARMER'S WIFE GETS STRENGTH

By Taking Lydia E. Pinkham's Vegetable Compound

Wilton, Ont.—"I am taking Lydia E. Pinkham's Vegetable Compound through the Change of Life. It helps me and I cannot praise it too highly. I was troubled with heat flashes and my limbs were heavy so I could hardly walk to do my farm work. I saw in the newspapers your ad about the Vegetable Compound and thought to give it a trial. The first bottle gave me relief and I have told others what it does for me. I am willing for you to use my letter if you choose."—Mrs. D. B. Peters, Wilton, Ontario.

Ask Your Neighbor

Little Helps For This Week

"Not my will, but Thine be done."
—Luke xxii. 42.

Whate'er my Father wills is best,—
Delight or suffering, toil or rest,—
Thine eye, and Thine alone, can see
What I should have, and do, and be,
I only ask that I may know
The way which Thou wouldst have me go;
That I, my will in Thine may lose;
That what Thou, Lord, for me shalt choose,
I, too, may choose.
—C. W. Harris.

There are no disappointments, it has been said, to those whose wills are bound up in the will of God.
—The Light Of the Conscience.

Dip the stopper of the mucilage bottle in a little melted paraffin before placing it in the bottle and it will never stick.

Minard's Liniment—Popular for 50 years.

Are *You* Ready

When *your* Children Cry for It

Baby has little upsets at times. All your care cannot prevent them. But you can be prepared. Then you can do what any experienced nurse would do—what most physicians would tell you to do—give a few drops of plain Castoria. No sooner done than Baby is soothed; relief is just a matter of moments. Yet you have eased your child without use of a single doubtful drug; Castoria is vegetable. So it's safe to use as often as an infant has any little pain you cannot pat away. And it's always ready for the cruelest pangs of colic, or constipation, or diarrhea; effective, too, for older children. Twenty-five million bottles were bought last year.

Fletcher's CASTORIA

3100 Inspected by Empire Delegates

The inspection by the delegates of the British Empire Parliamentary Association of the largest passenger engine in the British Empire, the new Canadian Pacific 3100 afforded an opportunity for a group photograph of a number of prominent members at Windsor Station on their way home. From left to right they are; A. B. Calder, special representative of the Canadian Pacific Railway; Gearoid O'Sullivan, T.D.; and Martin Roddy, T.D., from the Irish Free State; Jozua Francois Tom Naude, M.L.A., South Africa; Hon. L. Cripps, Speaker of the Legislative Assembly of the Colony of Southern Rhodesia; Hon. Ernest George Jansen, M.L.A., Speaker of the House of Assembly, South Africa; Senator William George Thompson, V.D.; Australia; Sir Samuel Chapman, M.P., Great Britain; Geo. Hambledon, Ottawa; C. W. Masterson, Montreal; and Major Guy Kindersley, M.P., Great Britain.

Spruce Grove News

Contractor E Anderson has under construction, on Main street, a residence for Mr Maier, of the United Grain Growers elevator.

Mr and Mrs R N Sherwin were in attendance, on Monday last, at the golden wedding anniversary of Mr Sherwin's parents, Mr and Mrs J P Sherwin, residents of Edmonton. Mrs Floyd Baker of Fort Saskatchewan (a daughter) also was present at the celebration.

Advices just received from Vancouver state that the car of wheat shipped by Mr Dan Brox graded No 1 Northern.

Hans Makulla hauled in his first load of wheat Saturday, which graded No. 2. Hans claims he brought in the worst of the bin, and says he'll get No 1 for the balance of his thousand bushels.

Still, the farmers don't raise all the good things around here. Mr Joe D Miller has as fine a sample of Netty Gem potatoes as anyone would wish to see, and would take a prize in any Fair. Joe grew these in the spud patch behind the hostelry.

Rev C Keenan has completed arrangements for the construction of a Mission house at Tomahawk, and is paying a visit, this week, to the scene of operations.

Mr George Tomlinson was down from Jasper over the week end.

Mr Sodorozny, who farms south of town, was taken in to Edmonton, last week, for treatment.

BENEFIT DANCE

IN HOLBORN HALL,

FRIDAY, OCT. 26

BARNES' ORCHESTRA.

Stony Plain and District.

IT PAYS TO PAY CASH.

The C. N. Ry. intends in stalling a water tank here, for its locomotives. Mr Philipovitch has the contract to drill the well.

Those intending to spend Christmas in the Old Country should note that a change has been made in the sailing dates of the steamships. See advt. on page six.

A very enjoyable chicken supper was given by the Ladies' Aid in United church Monday evening, and this was well patronised. At the concert which followed a number of vocal and instrumental selections were given, which weregreatly appreciated. Miss Lucas, Teacher of Elocution in Alberta College, gave some charming selections in her line, each one of which was a gem.

On Sunday next, Oct. 21st, the pastor, Rev G A Sauder, will give a special sermon on "Courage" in the United church, at 7.30 p.m.

Barth's orchestra put on a very successful dance in Stony on Wepneskay evening.

Mr F W Lundy wishes to announce that a representative of Robertson, Winkler & Hawe, the Edmonton legal firm, will be in Stony Plain every Saturday afternoon, and any other day for which a client wishes to make an appointment. Mr H D Laird will also be in Stony by appointment.

7% is a good return on your money; so is a subscription to your local paper.

The Sinner Case

Last Spring, John, Philip and Geo Sinner appeared before Magistrate McLeod, and were committed for trial, on the charge that they had cut trees on lands other than that covered by their timber permit from the Crown Lands department. The Sun was given to understand that this case was on the docket for a hearing last week in the criminal branch of the Supreme Court, but that on Thursday an agreement was come to between the parties concerned, with the result that the charge against the accused was dropped.

Duffield Doings.

The Gov.-General's bronze medal, awarded in each inspectorate to the pupil taking the highest aggregate in the Public school leaving exams has been awarded to Miss Esther Mildred Akins, White Whale school, in Edmonton Rural Inspectorate.

Mr Henry Scheideman was a business visitor to the City on Tuesday.

Here and There

(149)

Brandon's first broadcasting station has gone into daily use, and a studio located there will give grain and stock reports each day, and once a week, in the evening, will broadcast local concert programmes.

A training school for the encouragement of home industries is being talked of in Winnipeg, following the Folksong Festival held in that city recently under the auspices of the Canadian Pacific Railway. Montreal, it may be noted, has had for some years classes to teach their native handicrafts to children of foreign-born settlers, who would otherwise be likely not to acquire the skill they would have developed in their own country.

W. N. Beach, a hunter and photographer of wild life who had the unique distinction of finding two different pairs of locked antlers during his career, was a recent visitor to the General Tourist Department of the C. P. R. at Montreal. Locked antlers are very rarely found and one of the two pairs discovered by him are so firmly interlocked that they cannot be pulled apart by two strong men, and to be separated would have to be cut.

"In all my experience I have not previously found so general a feeling of complete confidence in this country and its possibilities as was observed in the cities and districts where we made stops and had an opportunity of talking things over with their representative citizens" was the statement made by E. W. Beatty, president of the Canadian Pacific Railway, who has just returned to Montreal from an eight thousand mile tour over the company's western lines, accompanied by a party of directors and Montreal financiers.

Billing and cooing and showing no signs of having their affectionate dispositions dampened by the strain of travel, two cages of Japanese Love Birds passed through the Windsor Station at Montreal recently on their way from Japan to Scotland. Travelling from Kobe on the Empress of Russia and across the Atlantic on the Duchess of Atholl, the shipment of twenty eight Cobalt Budgerigars, as they are also called, are under the protective wing of the Canadian Pacific Express throughout. They were of a brilliant blue plumage, long tailed and beaked much like a parraquet.

Not only is Canada sufficiently interested in the League of Nations to have the Prime Minister go over to Geneva in person to participate in this year's assembly, but many thousands of active supporters of the movement are now organized throughout the country. According to information given out by the General Secretary of the League of Nations Society in Canada at Ottawa the membership of that organization has grown in three years from less than a thousand to almost fifteen thousand in number. Although strongly supported by women's organizations of all sorts and descriptions, its character is by no means feminine as over half the members are business men, and in British Columbia 85 per cent. are men.

An Appeal!

Our agent Paul Werner wishes herewith to enlist the co operation of the farmers of this district, to place as many British Harvesters as possible for the coming winter.

There will be a large number of them ton hand when harvest operations are completed, and as you are aware, the men who stick it out not wishing to return to the Old Country, are the type that Canada wants and needs to keep.

Anyone who can employ winter help is asked to kindly see Paul Werner.
